Aspiring BOLD LOOK

From the powerful proportions to the dynamic front with its precise lines to the pronounced shoulders, the expressive silhouette is a definite head-turner. The Allspace exhibits a great sense of style: from the very front, with its striking radiator grille and the elegant signature light, its premium claim is clear.

IQ. Light LED **MATRIX HEADLIGHT**

ALLSPACE shines in full splendour. The IQ.LIGHT Matrix is a revolutionary vehicle lighting system made of 24 individual LEDs that guide the driver through the night with enhanced convenience and comfort.

4-MOTION ALL-WHEEL DRIVE

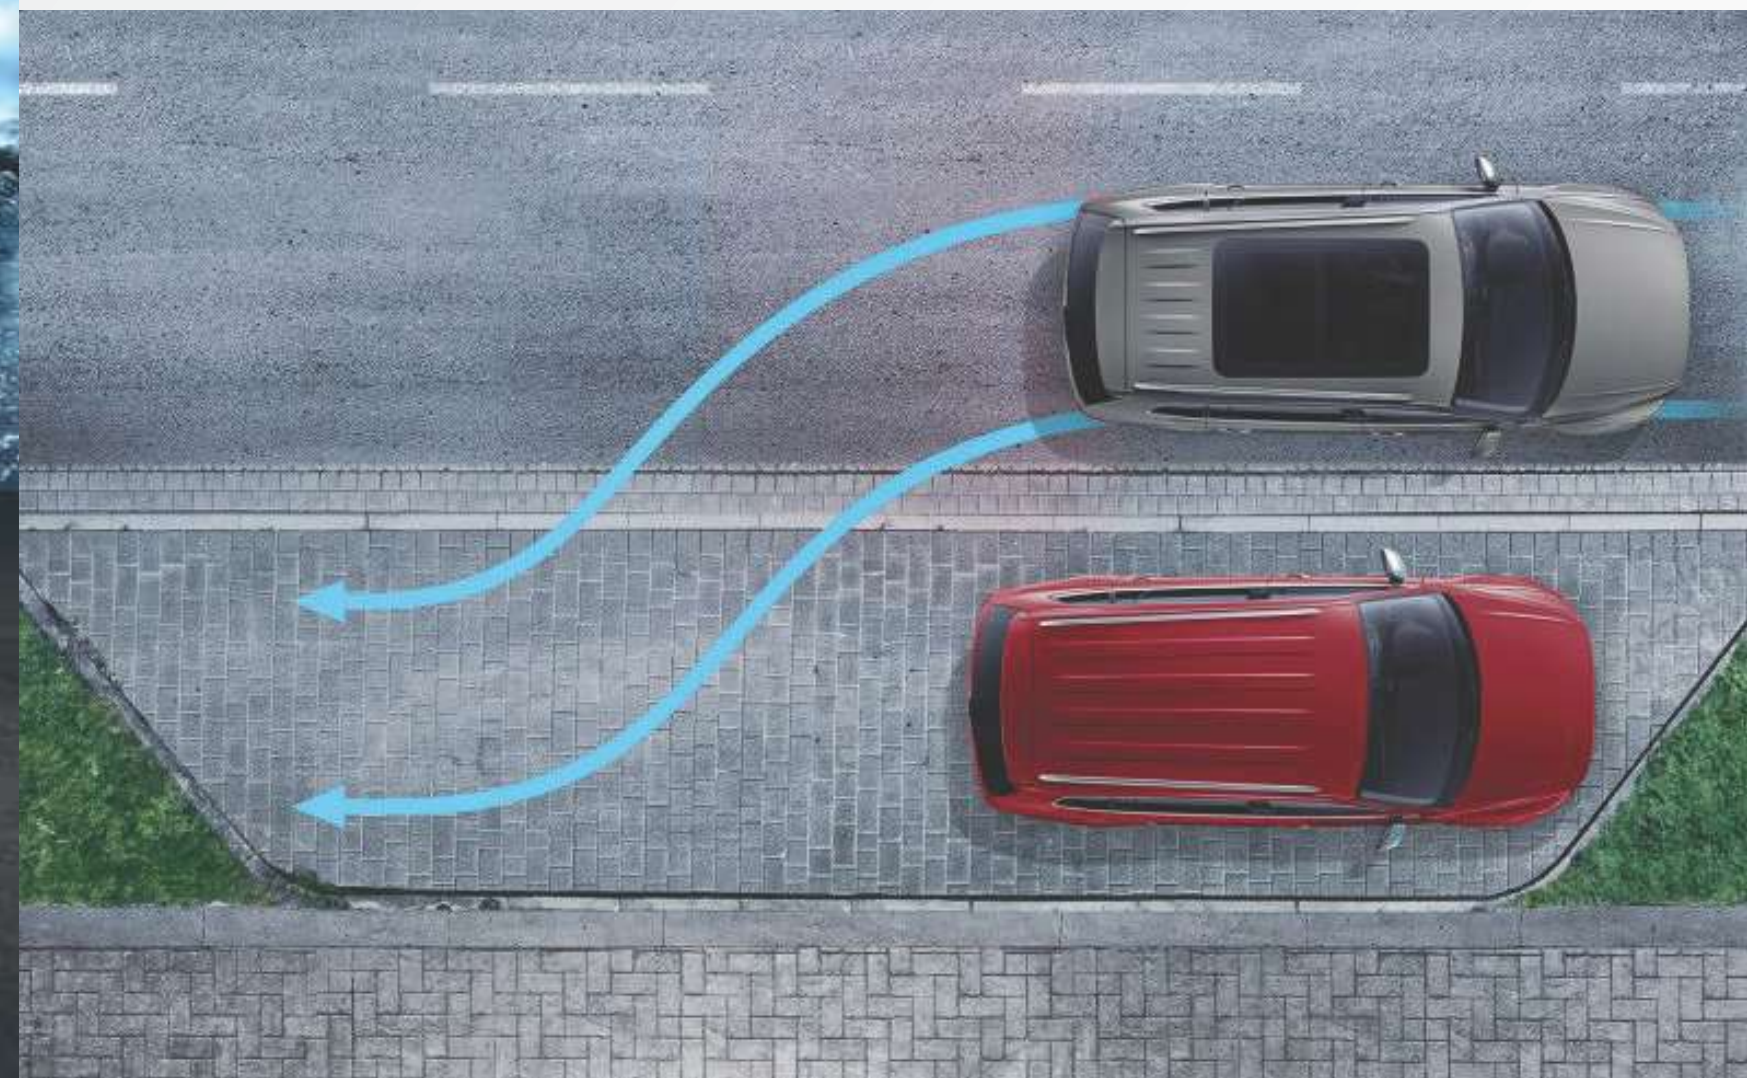

Traction in action

4 MOTION all-wheel drive technology distributes power evenly to all four wheels in challenging driving conditions like wet, icy, or rough terrain. This results in improved stability, better traction, and enhanced driving experience.

Park ASSIST

Perfect Parking, Every Time

The Allspace not only takes you to your destination but also puts you right into the parking spot. No more parking anxiety! Ultrasonic sensors scan parking spaces (up to max. 40 km/h) To steer into parallel parking spaces, the system requires the vehicle length + 80 cm manoeuvring distance; to come out of them, a minimum of 25 cm at the back and front of the vehicle suffices. For perpendicular parking spaces, a 35 cm manoeuvring distance at the front and the back are required.

The trip you
ENJOY THE MOST

More Boot Space Means
MORE ROOM FOR ADVENTURE

Combining Digital Convenience with **TIMELESS COMFORT**

Clear shapes, high-quality decorative elements, and spacious layout – in Allspace, you can not only see the space, but feel it, too. For example, when you settle into the comfort seats and take hold of the leather multifunction steering wheel. A glance at the cockpit suffices to see that the digital age has arrived. High-resolution displays and touch-sensitive surfaces dominate, such as the 3-zone “Air Care Climatronic” air conditioning system. You no longer need to use your hands to change the radio station or enter a destination into the navigation system; thanks to the optional voice control you only need to say what you want.

Cutting-EDGE TECH

Once you experience the connectivity and functionality of the technology in Allspace you'll wonder how you ever lived without it.

Ambient LIGHTING

Whether travelling as a twosome or with the family, driving through a brightly lit city or along a dark country road: you can create a different ambience's to suit you and your passengers depending on the mood and situation.

Flexible **DRIVING STYLE**

Select the driving profile you want with a tap of your finger and the drive system, steering and even gear-shift points will be adjusted automatically.

Harman/Kardon **EXCITE SURROUND**

Powerful bass. Crystal-clear treble. The best sound no matter what seat you are in: front or back, or very back.

Flexible and **FUNCTIONAL SPACE**

Take advantage of the spacious 7-seat carrying capacity or fold the back row for generous luggage carrying space. You're always in control.

Opens up new **OPPORTUNITIES**

A small movement of the foot under the rear of the vehicle is sufficient to open the boot lid via the optional Easy Open & Close sensor-controlled luggage compartment opener.

TECHNICAL SPECIFICATIONS

ENGINE		
Engine Type	4-cylinder in line Engine
